That beautiful moment, once you feel the water around you again it is like being in a time machine traveling back to beautiful memories. Just close your eyes, the water, the people you are with, the smell, the mood, all of that can take you back to a moment in time like nothing else can.

Most of our dealers have been with us since we started our very first production in EU. Due to a careful selection we have managed to create well working team able to deliver and install healthy, safe and quality pools all around the year.
Our mission

When we first met with Compass pool in Australia, it was like a bolt from the blue for both of us. Right at that time we made it our mission to evoke the same emotions we experienced in our end customers.

Together with our team and our dealers we are trying to push the borders of a traditional pool sale to a high emotional experience. We are pleased for connecting our customers with our product and improving the lifestyles of thousands of families all over the Europe.

Founders of Compass Europe: Zoltan Berghauer and Miro Ruziak
2016  Compass Europe opened a newly rebuilt factory.

2017  We brought innovations into our pool portfolio.

2005  17.7. 2005 / Slovakia  Compass Europe factory was established.

2008  Compass rollo cover was found and added to the accessories portfolio.

2009  Unique Compass Grancanaria conference with the best pool selling companies within EU. What a great time we had together.

2009  Development of cyber colors and new pool shape with roman stairs and flat bottom.

2010  Dubai conference and becoming the EU pool producer leading company. We also developed new color range NOVA.

2013  Compass carbon revolution, by adding this material to our pools we gave them stability and durability.

2014  Excellence in design for the first time in pools category. After introducing the Yachtpool to the market, it immediately won the Red Dot and iF Design Awards.

2015  Fire in Compass Factory. Nothing is as sad as seeing the factory you have been improving for 10 years being burnt by totally destroying fire.

2016  12.6. 2014  Poolpark Wels opening the most luxury and biggest poolpark in Europe with 8 built in pools.

2016  The new Compass Europe Factory opening ceremony. In 1 year we rebuilt, furnished and opened new production. We became the most modern and ECO friendly pool producer in EU.

2017  We developed here new pools and started with new line of AQUA NOVA and XL-LOUNGER.
When Compass Pools introduced ceramic technology to the swimming pool industry in the mid 90’s, it quickly became an accepted technology around the world. For decades now, we’ve been recognised as world leaders and innovators in this market. Our patented technology dramatically improves the pool’s structural integrity and is the reason why Compass Pools can offer all customers the confidence in a solution that will suit their specific needs.

The secret to the success and durability of a Compass Pool is in its patented ceramic composite design. The extensively exerted areas of the pool are structurally strengthened by the additional use of carbon in the patented Ceramic System.

Carbon has the highest compressive strength of all reinforcement materials. The same material with high strength, also found in automobiles, ships and airplanes, has been used in Compass ceramic pools since 2013.

A super-tough pool you know you can rely on

Ceramic technology = ceramic layer along the whole pool shell

The extensively exerted areas are strengthened.

Anti-slip surface on all steps and on the bottom

Timeless design of the highest quality. Our pools are hand-made and well treated until they leave our factory.
The secret to the success and durability of a Compass Pool is in its patented ceramic design.

Since 2005 we are producing Compass Pools in our EU factory with the average yearly production of 1,200 pools. Our team brought many innovations to the production process as well as to the product itself, like adding the Carbon reinforcement to the material structure of our pool.

Thanks to this our factory is named "HOME OF THE CARBON CERAMIC POOL" and our pools are more stable and durable.

Factory innovations from 2016:

- most advanced spraying guns
- patented Air Exchange Technology
- significant reduction of waste emissions
- flexibility in the daily production
- TOP quality control, directly connected to SAP system

“Our promise is to produce and deliver a pool so tough and reliable that we can offer our customers with peace of mind a lifetime structural guarantee.”

Tibor Meszaros, Director Compass Europe s.r.o.
“We are proud to say that our newly opened factory, from June 2016, was designed to allow us to work in an eco-friendly manner and to give us more flexibility by fulfilling expectations of our customers. Our material suppliers are carefully chosen within the world. Most of them are the best on the market and they are with us from the beginning of our own European production in 2005. All of us are working together to deliver you healthy, safe and high quality pools. This is our story.”

VANTAGE SELF-CLEANING POOL

LIFETIME WARRANTY

STRUCTURAL

SALT WATER FRIENDLY
Your pool with stunningly good look

Life is not black and white. Compass invented colours according to your great holiday memories. Design your own sea in your garden.

**NOVA® COLOURS**

New types of colour chips and modernized primary colour mixtures are used! Aesthetically, its translucent holographic effect gives a distinguishing brilliance.

**BI-LUMINITE® & CYBER COLOURS**

These colours change the look of composite pools thanks to small glittering particles just below the top-coat and the application of two paint layers instead of one.

**Features:**

- 2 layers of special paint that are applied separately
- Colour effect of the most beautiful sea lagoon you can only imagine
- Coloured layers are applied manually as on the most expensive cars that’s why every pool is an original
Explore your home and choose its most distinctive visual element. It can be the colour of the facade or its interesting detail, which can be visually connected to your new pool.

The main idea of our concept is to give architects and our customers a creative potential and possibility to not just have a perfect pool, but to match the exterior of their house with Compass pool. And to create something unique and completely original.

Despite the wide range of our creative solutions we have a team of designers for you, who are ready to help you to give a real look to your ideas. Just prepare a brief for us, discuss it with our dealer and send them with any questions to: linda@compasspools.eu.

We together will have a look at how your ideas can work and you can enjoy your unusual surroundings, created by you, tailored to your needs.
We build houses and start families. We sail yachts. We are active and do all kind of sports.

We’ve achieved one goal and the next one is already waiting for us. Can we just stop for a while?

No, we can’t. Neither do we want to. We always want to achieve the best. For us something is good enough only when we’ve made it even better. Why? Because we are showing passion. We enjoy creating the moments full of excitement from everyday life.

The new Compass Selection concept. Symbol of your lifestyle.
You can make it happen

YACHT POOL FB

- Stainless steel handrails
- Integrated SPA for 2 persons (with 33 massage nozzles)
- Genuine yacht flexi-deck floor
- Position lights (L and R)
- Space for the Rollo Cover or massage nozzles

Length 11,54 m
Width 4,04 m
Depth 1,50 m
Volume 42 m³
Weight 1200 kg
Rollo Cover

XL-FAST LANE 122 FB

- Steps with anti-slip surface
- Relaxzone and Massage nozzles optional
- Integrated rail for the safe guidance of Rollo cover
- Space for Rollo cover or massage nozzles

Length 12,15 m
Width 2,89 m
Depth 1,50 m
Volume 43 m³
Weight 1500 kg
Rollo Cover

XXL-TRAINER 133 FB

- Steps with anti-slip surface
- Relaxzone and Massage nozzles optional
- Integrated rail for the safe guidance of Rollo cover
- Space for Rollo cover or massage nozzles

Length 13,28 m
Width 4,49 m
Depth 1,50 m
Volume 75 m³
Weight 2400 kg
Rollo Cover
The only pool that has won the most prestigious design awards worldwide.

Yachtpool: A combination of a pool and massage bathtub
small garden pools

SMALL

Less than 7.5m

These pools are designed for houses with a small area or a garden behind or next to it. You can choose from a variety of models, which are effective in their concept and can adapt to every small garden. Fulfill your dreams about having a pool now, even if you own a smaller area. This range of pools can make it happen.

Your own sea, your own private beach...
self-cleaning pool
VANTAGE

Just imagine a pool which cleans itself, saves money and uses less chemicals

VANTAGE system is a number one in the world among circulation and cleaning systems and it is much more efficient than any pool vacuum cleaner. It provides efficient and high-performance cleaning from the surface to the bottom of the pool.

Its massive patented telescopic nozzle „Pop-up“ is able to cover a four times larger area than small devices and therefore it cope even with larger pieces of debris. The system is completely automated and silent. It works even when you are enjoying your pool.

No time to look after your pool? We bring simple and effective solution.

Benefits of Vantage system:
• you get the top self-cleaning pool
• water circulation eliminates growth of algae and bacteria
• reduces the usage of chemicals

No need for regular hand vacuuming or any other cleaning equipment

Find out more at:
www.compasspools.eu

NO TIME TO LOOK AFTER YOUR POOL?
OUR SELF-CLEANING POOL IS THE BEST SOLUTION FOR YOU.
The Compass Pools Rollo Cover is a high quality product designed to perfectly fit our pools and made of only high-end raw material and sub-assemblies.

Our automatic swimming pool covers are thermally efficient and restrict energy losses to a minimum. In addition, your swimming pool stays cleaner and chlorine degradation by UV is reduced which decreases maintenance costs. Cover can bear the weight of a small pet, child or even an adult.

For maximum compass safety, an integrated perimeter guiding ledge prevents submersion of the slats when weighed down.

Here are your benefits:

• guarantees maximum energy efficiency and full safety
• ensure optimal warming of swimming pool water by 4 to 8 °C
• evaporation and heat loss are limited
